

THE METEOR.

From the "Religious," by Bernard and Lucy Barton.

A shepherd on the silver moon
Pursued his lone employ,
And by him which'd at midnight hour,
His boy and gentle boy.

The night was still, the sky was clear,
The moon and stars were bright;
And well the shepherd loved to hear
Of those bright orbs of light.

When lo! an earth-born meteor's glare
Made stars and planets dim;
In transient splendor through the air
His glory seemed to swim.

No more could stars or planets' light
The shepherd's eye enchant;
He only gazed at that bright light
Of this new visitant.

But, ere the shepherd found a tongue,
The meteor's gleam was gone;
And in their glory 'ere dawn hung
The orbs of night alone.

Came then the simple lesson read
My mother once had given;
The only light that safely lead
Are those that shine from heaven.

One far more bright than sun or star
Is in every soul;
To guide, to comfort, to impart
To heaven's eternal goal.

Spots on the Sun.—M. Colomb Meunier
de Nismes, the French astronomer, states
that whenever the sun exhibits spots on
its disc, its temperature becomes much colder;
and that when these spots are not visible,
the heat is much greater, and storms are of
more frequent occurrence and greater violence.

Herschel also came to the same
conclusion, after more than twenty years'
observation. All the spots which M. Meunier
has observed have been of the same form,
and have appeared in the same place.

Some of them he has observed to take about
ten days in passing over the sun, having made
their appearance at the lower limb, and passed
off at the upper; and he is convinced, he
adds, that they are little clouds which intercept
the solar rays, and consequently diminish
the heat of the sun. This theory is confirmed
by observations which have been taken from this
opinion. Never have so many of these spots
been observed as during the present year,
between February and the end of May.

Up to the 22d of April, M. Meunier had counted
ten, and up to the 16th of May thirteen, and
the season has been remarkable for its coldness.

Bank of British North America.—Measures
are in progress for the establishment of a
bank of the name above, under the
above title, with power to locate branches
in the principal towns of the American
colonies. The capital, which is one
million of pounds sterling, with liberty to
be increased to any amount, is divided into
twenty thousand shares, of fifty pounds
each, of which two-thirds have been sub-
scribed in London, and the remainder is
reserved for the colonies. The manage-
ment of the institution is vested in a
London Court of fourteen Directors, and
the branches are to be conducted by Boards,
appointed by them. Robert Cotton, Esq.,
one of the London directors, has arrived at
Montreal, for the purpose of receiving ap-
plications for the balance of the stock, and
making other arrangements for carrying
the objects of the company into immediate
effect. —*Niagara Falls Ad.*

1836.

Summer Arrangement.

On Monday, the 4th of July, the Franklin and
Winooski will leave Whitehall and St. John's
at TEN o'clock, A. M.; and will continue to
leave at that hour until Monday, the 5th of
September, when they will again leave the
above mentioned places at ONE o'clock, P. M.
the remainder of the season.

FRANKLIN,
Capt. RICHARD W. SHERMAN,
Will leave Whitehall every [and St. John's every
Tuesday, Monday,
Thursday & Saturday, Friday.

WINOOSKI,
Capt. DAN LYON,
Will leave Whitehall every [and St. John's every
Monday, Tuesday,
Wednesday & Thursday, Friday & Saturday.

Going North—Arrive at Essex at about 4 1/2
o'clock, P. M.; Burlington at 6; Port Kent,
at 7 1/2; Plattsburgh, at 9.

Going South—Arrive at Plattsburgh at about 3 1/2
o'clock, P. M.; Port Kent, at 5; Burlington, at
6; Essex, at 8.

Burlington, July, 1836.

The Variety Shop.

Street.

WE have received large additions to our
Stock of GOLD and SILVER
Watches, Chains, Keys, Pencils, Pins, ear
Rings, Clocks, plated Ware, Britannia,
Castors, brass and plated Candlesticks,
Snuffers and Trays; plated knob Lamps;
small go to bed Lamps, lamp Wicks and
Glasses; baskets, bags and purses; military
goods, perfumery, hair oil, shaving
soaps, razors, lather brushes, pots, &c.
fine razor straps, fine cutlery, pen wafers;
an elegant assortment of fashionable stocks,
collars and bosoms, accordeons, music boxes,
small organs, and all kinds of musical
instruments; hair, tooth and all kinds of
brushes, visiting cards and cases, a great
variety of sizes and colors; backgammon
boards, chessmen, playing cards, quills, silver
and steel pens; steel brass wood and
whalebone busks, narrow watchbones, stay
and boot laces of cotton and silk, India

engravings and prints for framing, &c.;
miniature cases and settings, pistol's large
and small low and high priced, dirks and
clasp knives, large and small telescopes or
"Spy Glasses," plaques of various patterns
which are rapidly superseding watch buckles,
powder horns and flasks, shot bags,
table mats, slates, canes and umbrellas, to-
gether with a very large and elegant col-
lection of fancy articles, some of which will
be more particularly enumerated at some
future time. To strangers visiting Bur-
lington we would just say, that we have
an assortment, selected with great care,
which stands, we believe, unrivalled in these
parts; and those wishing for fine Watches,
Jewelry, or any Goods we sell, will save
both time and money by calling at the Vari-
ety Shop, where Watches and Clocks are
cleaned and repaired; silver Spoons are
made and constantly kept for sale; Brands
and Stamps cut at short notice; trunk and
coffin Plates made when wanted.

PANGBORN & BRISMAID.

NOTICE

To the inhabitants of Burlington & Vicinity.

THE undersigned has rented the store
formerly occupied by Wm. Wells, and
the last year by David Irish, where he is
now receiving from New York a general
assortment of DRY GOODS, WET and
DRY CROCKERY, CROCKERY,
GLASS and HARD WARE, which he
will sell for cash or most kinds of country
produce as cheap as the cheapest.

He takes this opportunity to thank the
public for the general support he has re-
ceived for the short time he has been in
business, and he hopes, by giving good
bargains and paying strict attention to
business, still to receive the same general
support.

SOLOMON WALKER.
Burlington, May 21, 1836.

Atina Insurance Company.

THE subscriber continues to insure all
kinds of real and personal property
as agent for said Company, to whom ap-
plication may at all times be made at his
Office in Burlington. The established
reputation of this Company for stability,
firmness and liberality in their dealings,
needs no further commendation.

WM. A. GRISWOLD.
Burlington, April 6, 1836.

Dye Stuffs.

150 BBL'S ground Campeachy Log
wood, 100 do do Nicaragua, 100
do do Fustic, 50 do do camwood, 10 do
do curcuma, 12 do do bar wood, 20 do
do Madder, 25 do copperas, 15 do alum,
15 do blue vitriol, 25 carboys do oil, 2 bbls
argol, 2 do cream tartar, 2 bales nut
galls, 5 carboys Indigo. Clothiers' brush-
es, tent hooks, and press papers.

J. & J. H. PECK & CO.
July 22, 1836.

Cotton Goods.

10 BALES Lawrence, Chicopee, Cabot
and Red River Cottons; 4 bales heavy
suey stout Sheetings; 900 lbs. Cotton Yarn,
5 to 10—by

LEMUEL CURTIS & CO.
July 22, 1836.

Mannilla Mats.

4 Doz. Mannilla Mats, of every size and
color—by

LEMUEL CURTIS & CO.
July 22, 1836.

LATHROP & POTWIN.
July 1.

50 hds. proof, pure Boston

Rum, for sale on consignment, at Boston
prices, by

FOLLETT & BRADLEY.
June 24, 1836.

1836.

Rotary Stoves.

THE subscriber has just received from
the Foundry of J. D. Ward, Ver-
genne, No. 2 and 3

Rotary Cooking Stoves &
Trimnings; Box do.
Coldron Kettles,
Ploughs, &c. &c.

which are offered for sale for cash or ap-
proved credit.

P. S. He wishes to call the attention of
the economical, to the fuel and labor-sav-
ing properties of the Rotary Stove, and its
peculiar adaptation as a Summer Cooking
Stove. By the use of the grate, a very
small amount of fuel is required for the
culinary operations of any family; less by
one half, it is believed, than is required by
any other Stove in use. Its form and
height is such that it admits of being placed
in the fire places of ordinary kitchens,
so that most of the heat and effluvia from it
passes off by the chimney. The saving of
fuel effected by the Improved Rotary, in
one year, over that of almost any other
Cooking Stove, is fully equal to its cost.
Besides the superior facility and ease with
which the several culinary operations are
performed with it.

Also, Tea and Marlin Kettles of various
sizes, cast expressly for this Stove.

GEO. PETERSON.
Burlington, March 31, 1836.

Tin Plates, &c

Tin Plates; Russia, English
and American sheet Iron; iron Ware;
sheet and bolt Copper; sheet Zinc; tinned
and blt Rivets; wire Velum, &c.

Also—A full assortment of Tin Ware,
at wholesale or retail

T. F. & W. L. STRONG.
June 23.

Drugs and Medicines.

LATHROP & POTWIN have received
their Spring supply of Genuine
Drugs and Medicines and are now offering
them to the public, at wholesale or retail,
on the most reasonable terms.

June 3.

Groceries

100 CHESTS Hyson skin and Young
hyson Teas, 20 bags Coffee, 10
do. Pimento, 10 do. Pepper, 30 hds.
Boston N. E. Rum, 20 do rectified Whis-
key, 12 bbls. American Brandy and Gin,
Sicney Brand, Holland Gin, Pure St.
Croix Rum, Wines, Pale and Brown
Sherry, Pure Old Madeira, do do Port,
Teneriffe Canary, Sicily Madeira, French
do do Malaga, 25 baskets Champagne of
a superior brand, 15 cases Claret, 50
Quintals Cod Fish, 75 boxes Herring, 35
do Bar Soap, 20 do Starch, 30 do Pipes

J. & J. H. PECK & CO.
June 15.

DOCT. WHICHER.

FORMERLY from Dover, N. H. takes this
opportunity to inform his friends and
the public that he has opened a Botanic In-
firm at the Green Mountain House, in Pearl
street, Burlington, Vermont, where he has
fitted up rooms for the accommodation of
sick and infirm, and will practice in strict
conformity to the system of Doct. Samuel
Thomson of Boston, who has now become so
celebrated, not only in the United States, but
in Europe. "The Thomsonian System" has
not only received the entire approbation of
all who have tried its merits, but it has also re-
ceived the unqualified approbation of many of
the regular Practitioners. Doct. W. would be
leave to say to strangers, in regard to his
qualifications, that he has spent three years
diligently studying the principles of his pro-
fession, with Doct. Thomson and other dis-
tinguished practitioners that he has visited all
the Infirmarys in New England, and can con-
fidently offer his services to the public as well
qualified to administer to the diseases of the
sick, so far as preparatory studies and the
best advantages for information, will enable
him to do.

Mrs. Whicher having been at great pains to
acquire information in Botanic practice, and
having had two years experience in the pro-
fession with her husband, will take charge of
the female department of the Infirmary.

Doct. W. in addition, would be leave to
report a number of cures performed under his
own hand. First, the cure of William Walk-
er of Franklin, N. H., who was entirely cured
of the Rheumatism and Strangury in their
worst stages, in the course of twelve days,
after baffling the skill of all the learned doc-
tors in the country.

Second, the cure of Robert Salby, cured of
a bad eye, in five days, after having been de-
prived of his sight for a very considerable
time.

Third, the cure of Fidelia Elkins of North-
field, N. H., deprived of her reason seven years,
was restored to it again after a treatment of
eighteen days, and to perfect bodily health.

Fourth, the cure of Adeline Ham, had eyes
for six years, exceedingly sore—entirely cured
in five days.

Fifth, the cure of Martha Scruton, swelled
neck, supposed to be Kings-Evil—cured in five
days.

Sixth, the cure of Mr. Maro. This was a
case of Asthma, which had continued one year
and was cured in four days.

Seventh, the cure of Sibil Watton, was a
case of Dyspepsia, Rheumatism and Croup—
cured in eight days.

Eighth, the cure of Elmeda Quimby, cured
of Consumption, after having been given over
by all the doctors in the place.

Cure of Jacob Sawyer of Dover, N. H., cured
of Dropsy and Fever Sores, seventeen years
standing, in four weeks.

The case of Amelia Whicher, after twenty
years sickness of Dropsy, Dyspepsia and Pa-
ralytic shock, and of taking opium six years—
was cured in twenty days.

Mr. W. has had two hundred patients and
has given between four and five hundred
cures for complaints of all descriptions, with
entire success. Mr. W. is satisfied that his
mode of treatment has all the beneficial effects
of a visit to the springs—while it saves the
expense of an enormous expense.

Mr. W. would inform his friends that he has
on hand a complete assortment of Botanic
Medicines, from the hand of Doct. Samuel
Thomson. That he has also family rights and
Doct. Robinson's Bitters for sale.

Mr. W. acts as agent for Doct. Samuel
Thomson of Boston, not Benjamin Thompson
of Concord, N. H., nor Jesse Thompson of
Mount Vernon Charles-street, Boston.

N. B. Patients should always have a change
of linen when they put themselves under his
care.

April 14, 1836.

KERN & EVANS

HAVE just received from New York,
their spring supply of goods, com-
prising a choice selection of CLOTHS,
CASSIMERES, VESTINGS, TRIM-
MINGS, &c. which with their former
stock, makes their assortment the best
they have ever offered. And notwithstanding
the present unparalleled high prices of
goods in market, our arrangements are such
that we shall still be enabled to furnish our
customers with very superior articles at a
small advance from former prices for prompt
pay.

We will take the present occasion also,
to correct an erroneous impression, that
we sell only to those who employ us to
make their garments. This is entirely a
mistake. Much as it might gratify us to do
our friends justice in the fit, as well as the
fabric, we shall nevertheless be equally
happy to furnish the materials for those
who may find it more convenient to employ
other mechanics.

Burlington, May 12, 1836.

PERSONS AFFLICTED WITH

Corns!

WILL find in the use of the ALBION
CORN PLASTER, one of the most ef-
ficacious remedies known for that trouble.
Some complaint, as hundreds or thousands
can, and are ready to testify, to its having
answered a better purpose than any thing
they had ever used. This application never
causes the least pain, although it softens
the Corn and draws it out by the root
it gives immediate ease as soon as applied,
and is as thorough as it is gentle in its
effects.

REMARKABLE CURES!

A gentleman near Greenfield writes:—
"It has cured a Corn, which for years had
caused me inconceivable pain and trouble,
(after trying various other remedies) and
having received such relief myself, I advise
all, however obstinate the complaint, to
make trial of the Albion Corn Plaster, any
I have no doubt they will soon be as read-
y to express their gratitude as I am."

An Agent, in writing for a further supply
of the Albion Corn Plaster, observes:—"I
have made sale of all you sent me, and find
the article to be all it professes to be, and
those who have used it find it to prove the
best article for corns they have ever met with."
Price 50 cents a box, with directions.

THE BRITISH ANTISEPTIC

Dentifrice.

Restores the teeth beautifully and per-
manently white, embellishes the enamel,
removes the tartar arising from decayed
teeth, usually termed off-nice breath, pre-
vents their decay, and tooth ache, and
cures the scurvy from the gums, and im-
parts a most desirable sweetness to the
breath.

An experienced druggist pronounces
